| 12. Do you have any allergies to medications?
If yes list _____ | Yes | No |
| 13. After your procedure, you will have a follow up visit with Dr. Joseph to go over biopsy results, unless you are told otherwise. | | |

If you have multiple medical problems we will suggest an anesthesiologist for you

If you have no major medical problems, sedation for the procedure, can be performed either by Dr. Joseph or by an Anesthesiologist.

Please check one: Conscious Sedation (Like flying coach) Anesthesia (Like flying 1st class)

The anesthesiologist is capable of deeper sedation, which wears off quicker and makes the procedure faster and easier.

There will be a separate anesthesiologist charge. This is often covered by your insurance.
